

## Plant Information

Common Name: Louisa Crabapple

Scientific Name: Malus 'Louisa'

Plant Type: Tree

## Physical Characteristics

Height/Spread: 4-5 meters tall and 3-4 meters wide

Growth Rate: Moderate

Flower Color(s): White

Foliage Color(s): Green

Bloom Time: Spring

## Plant Description

Malus Louisa, commonly known as Louisa Crabapple, is a beautiful tree that adds charm to any landscape with its white spring flowers and small edible fruits. This moderate-growing tree is low-maintenance and attracts pollinators, making it a great addition to gardens. With a hardiness zone of 4-7, it thrives in full sun and well-drained soil. While susceptible to some diseases, its unique features and drought tolerance make it a desirable choice for ornamental purposes. Plant Louisa Crabapple alongside lilacs, daffodils, or daylilies for a stunning garden display.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 4-7

## Maintenance & Care

Maintenance Level: Low

Potential Pests & Diseases: Susceptible to apple scab and fire blight

## Additional Information

Special Features: Attracts pollinators, small edible fruits, drought-tolerant once established

Common Uses: Ornamental tree, wildlife habitat
