

Plant Information

Common Name: Lucifer Crocosmia
Scientific Name: Crocosmia 'Lucifer'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 1 meter tall, 50 cm spread
Growth Rate: Fast
Flower Color(s): Bright red
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Crocosmia Lucifer is a stunning perennial plant known for its vibrant red flowers that bloom in clusters during the summer months. This low-maintenance plant adds a pop of color to any garden, attracting hummingbirds while keeping deer at bay. With its upright growth habit and striking foliage, Crocosmia Lucifer is an excellent choice for borders or containers. Pair it with other perennials like Agapanthus or Echinops for a beautiful and dynamic garden display. This fast-growing plant thrives in full sun and moderate watering, making it a perfect choice for gardeners looking to add a touch of drama to their landscape.

Optimal Growing Requirements

Sun: Full Sun

Soil: Loamy, well-drained

Water: Moderate Watering

Hardiness Zone(s): Zone 5-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, spider mites

Additional Information

Special Features: Attracts hummingbirds, deer resistant
Common Uses: Borders, containers
