

Plant Information

Common Name: Magnolia Susan
Scientific Name: Magnolia x 'Susan'
Plant Type: Tree

Physical Characteristics

Height/Spread: 3-4 meters tall and 2-3 meters wide
Growth Rate: Moderate
Flower Color(s): Deep pink to reddish-purple
Foliage Color(s): Green
Bloom Time: Late spring to early summer

Plant Description

Magnolia Susan is a stunning tree known for its beautiful deep pink to reddish-purple flowers that bloom in late spring to early summer. It has green foliage and a moderate growth rate, reaching a height of 3-4 meters. This tree thrives in well-draining, rich soil and requires moderate watering. Magnolia Susan is low maintenance and attracts pollinators with its fragrant flowers. It is perfect as a specimen tree or focal point in a garden, and can be complemented by planting it alongside rhododendrons, azaleas, and hostas. In Canadian hardiness zones 5-9, Magnolia Susan adds beauty and charm to any landscape.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Water: Moderate Watering

Soil: Well-draining, rich soil

Hardiness Zone(s): Zones 5-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to scale insects and fungal diseases

Additional Information

Special Features: Fragrant flowers, attracts pollinators
Common Uses: Specimen tree, focal point in garden
