

## Plant Information

Common Name: Marmalade Skies  
Scientific Name: *Gaillardia x grandiflora* 'Marmalade Skies'  
Plant Type: Perennials

## Physical Characteristics

Height/Spread: 30-45 cm (height) and 45-60 cm (spread)  
Growth Rate: Moderate  
Flower Color(s): Shades of orange, yellow, and red  
Foliage Color(s): Green  
Bloom Time: Summer to early fall

## Plant Description

Marmalade Skies, scientifically known as *Gaillardia x grandiflora* 'Marmalade Skies', is a stunning perennial plant with vibrant orange, yellow, and red flowers that bloom from summer to early fall. With a moderate growth rate and low to moderate watering needs, this drought-tolerant plant is perfect for borders, containers, and pollinator gardens. Its green foliage and compact size make it an excellent choice for adding color and attracting butterflies to your outdoor space. Marmalade Skies thrives in full sun and well-drained soil, making it a versatile and low-maintenance addition to any garden landscape.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, sandy soil

Water: Low to moderate watering

Hardiness Zone(s): Zones 3-9

## Maintenance & Care

Maintenance Level: Low to moderate  
Potential Pests & Diseases: Susceptible to powdery mildew and spider mites

## Additional Information

Special Features: Drought-tolerant, attracts butterflies  
Common Uses: Borders, containers, and pollinator gardens
