Scientific Name: *Caltha palustris* Plena  
Plant Type: Perennials

## Physical Characteristics

Height/Spread: 30-60 cm height, 30-60 cm spread  
Growth Rate: Moderate  
Flower Color(s): Yellow  
Foliage Color(s): Green  
Bloom Time: Spring

## Plant Description

*Caltha palustris* Plena, also known as Marsh Marigold, is a charming perennial plant that adds a burst of yellow color to wetland gardens and shady areas. With its attractive green foliage and double yellow flowers blooming in spring, this plant attracts pollinators while being deer resistant. Its moderate growth rate and low maintenance needs make it a perfect choice for gardeners looking to create a beautiful water feature or border plant. Plant alongside Japanese iris, Siberian iris, or cardinal flower for a stunning display of color and texture in the garden.

## Optimal Growing Requirements

Sun: Full Sun, Part Shade

Soil: Moist, rich, acidic soil

Water: High Watering

Hardiness Zone(s): Zone 2-7

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Susceptible to slugs and snails

## Additional Information

Special Features: Attracts pollinators, deer resistant  
Common Uses: Ideal for bog and wetland gardens, water features, and shady areas
