

Plant Information

Common Name: Mauvette Blue Calamintha
Scientific Name: Calamintha nepeta 'Mauvette'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 30-45 cm height, 30-45 cm spread
Growth Rate: Moderate
Flower Color(s): Purple
Foliage Color(s): Gray-green
Bloom Time: Summer

Plant Description

Calamintha 'Mauvette' is a lovely perennial with aromatic gray-green foliage and beautiful purple flowers that bloom profusely in the summer months. This plant is easy to care for, requiring minimal watering and maintenance, making it a great addition to any garden or landscape. Its drought tolerance and ability to attract pollinators make it a valuable plant for both experienced and novice gardeners. Calamintha 'Mauvette' can be used as a border plant or in containers, and it pairs well with other popular garden plants like lavender, salvia, and echinacea. Brighten up your garden with the delightful Mauvette Blue Calamintha!

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Low Watering

Hardiness Zone(s): Zone 5-8
