

## Plant Information

Common Name: Midnight Sky Aster  
Scientific Name: Aster n-b Midnight Sky  
Plant Type: Perennial

## Physical Characteristics

Height/Spread: 40-50 cm tall, 50-60 cm wide  
Growth Rate: Moderate  
Flower Color(s): Purple with white centers  
Foliage Color(s): Green  
Bloom Time: Late Summer to Fall

## Plant Description

Aster n-b Midnight Sky is a stunning perennial plant with purple flowers that have striking white centers, blooming from late summer to fall. This low-maintenance plant thrives in full sun and well-drained soil, making it a perfect addition to borders, containers, or pollinator gardens. Its unique coloration attracts butterflies, while its drought-tolerant nature makes it ideal for gardens in various climates. Pairing Midnight Sky Aster with plants like sedum, ornamental grasses, or coneflowers can create a visually stunning and harmonious landscape. Enjoy the beauty and easy care of this lovely Aster variety in your outdoor space.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, loamy soil

Water: Moderate Watering

Hardiness Zone(s): Zones 4-8

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Aphids, powdery mildew

## Additional Information

Special Features: Drought-tolerant, attracts butterflies  
Common Uses: Borders, containers, pollinator gardens
