

Plant Information

Common Name: Misty Blue Bugbane
Scientific Name: *Cimicifuga racemosa* 'Misty Blue'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 1-1.5 meters tall, 60-90 centimeters wide
Growth Rate: Moderate
Flower Color(s): White
Foliage Color(s): Blue-green
Bloom Time: Late summer to early fall

Plant Description

Cimicifuga Misty Blue, also known as Misty Blue Bugbane, is a stunning perennial with striking blue-green foliage and fragrant white flowers that bloom in late summer to early fall. This low-maintenance plant thrives in partially shaded to fully shaded areas, making it perfect for woodland or shade gardens. Its resistance to deer makes it a reliable choice for landscaping. *Cimicifuga* Misty Blue adds a touch of elegance and color to any garden setting, attracting pollinators and providing a beautiful contrast to other shade-loving plants like hostas and astilbe.

Optimal Growing Requirements

Sun: Part Shade to Full Shade

Soil: Moist, well-drained, rich soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to powdery mildew and aphids

Additional Information

Special Features: Deer resistant, fragrant flowers
Common Uses: Border plant, woodland gardens, shade gardens

Notes
