

## Plant Information

Common Name: Nicolas  
Scientific Name: Nicotiana  
Plant Type: Annuals

## Physical Characteristics

Height/Spread: 0.5-1 meter tall, 0.3-0.6 meters wide  
Growth Rate: Moderate  
Flower Color(s): White, pink, red, yellow  
Foliage Color(s): Green  
Bloom Time: Summer

## Plant Description

Nicolas, also known as Nicotiana, is an annual plant with fragrant flowers that bloom in various colors during the summer. This low-maintenance plant thrives in well-draining soil under full sun to part shade conditions. Nicolas is ideal for borders and containers, attracting hummingbirds with its sweet scent. While it may be susceptible to tobacco mosaic virus and aphids, regular care can keep these pests at bay. Consider planting Nicolas alongside marigolds and petunias for a visually appealing garden display. With its moderate growth rate and versatile uses, Nicolas is a popular choice for Canadian gardeners looking to add color and fragrance to their outdoor spaces.

## Optimal Growing Requirements

Sun: Full Sun, Part Shade

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 2-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Tobacco mosaic virus, aphids

## Additional Information

Special Features: Fragrant flowers, attracts hummingbirds  
Common Uses: Border plant, container plant
