

Plant Information

Common Name: Night Owl Coneflower
Scientific Name: Echinacea purpurea 'Night Owl'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 60-90 cm tall, 45-60 cm wide
Growth Rate: Moderate
Flower Color(s): Deep purple
Foliage Color(s): Dark green
Bloom Time: Summer

Plant Description

Night Owl Coneflower is a stunning perennial with deep purple flowers that bloom in the summer. It thrives in full sun and well-drained soil, making it a low-maintenance addition to any garden. This coneflower attracts pollinators and is deer resistant, making it a versatile and beautiful plant for borders or cutting gardens. Pair Night Owl Coneflower with other sun-loving perennials like Black-eyed Susan and Russian Sage for a vibrant and colorful garden display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zone 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally resistant to pests and diseases

Additional Information

Special Features: Attracts pollinators, deer resistant
Common Uses: Border plant, cut flowers
