Scientific Name: Rhododendron 'Northern Hi-Lights'
Plant Type: Shrub

Physical Characteristics

Height/Spread: 1-1.5 meters tall and wide
Growth Rate: Moderate
Flower Color(s): White with yellow centers
Foliage Color(s): Dark green
Bloom Time: Spring

Plant Description

The Azalea Northern Hi-Lights is a stunning shrub known for its white flowers with yellow centers that bloom in spring. With dark green foliage, this moderate-growing plant thrives in part shade and requires moderate watering. It attracts butterflies and has a lovely fragrance, making it a popular choice for borders, hedges, and woodland gardens. This low-maintenance shrub is best planted in well-drained, acidic soil and is hardy in zones 4-7. Be cautious of lace bugs and root rot as potential pests and diseases. Pair it with other rhododendrons, azaleas, or Japanese maples for a beautiful landscape display.

Optimal Growing Requirements

Sun: Part shade

Soil: Well-drained, acidic soil

Water: Moderate watering

Hardiness Zone(s): Zones 4-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to lace bugs, root rot

Additional Information
