Bloom Time: nan

Plant Description

Aurora Borealis is a stunning variety of Northern Lights Fern with delicate bright green fronds accented by silver streaks, adding a touch of elegance to any shady garden space. This low-maintenance perennial thrives in moist, well-drained soil, making it a perfect choice for adding texture and color to shaded areas. Its unique foliage and moderate growth rate make it a standout addition to any landscaping project, whether used as a border plant, ground cover, or in containers. Pair Aurora Borealis with other shade-loving plants like Hostas or Heucheras for a visually appealing garden display.

Optimal Growing Requirements

Sun: Part Shade to Shade

Soil: Rich, well-drained soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally pest and disease-resistant

Additional Information

Special Features: Unique silver streaks on the foliage, shade-loving
Common Uses: Ideal for shaded garden beds, borders, or as a container plant
