Plant Description

Osceola, also known as Lawson's Cypress 'Osceola', is a slow-growing evergreen tree with striking blue-green foliage. This tree is well-suited as a focal point in the landscape or as a privacy screen. Osceola is low-maintenance, drought-tolerant, and deer-resistant, making it a popular choice for gardens in Canada. Its narrow, upright growth habit makes it suitable for smaller yards or tight spaces. With its unique color and texture, Osceola adds visual interest to any garden and pairs well with other evergreens like Arborvitae and Japanese Maple.
