

Plant Information

Common Name: Ostrich Plume Astilbe
Scientific Name: *Astilbe thunbergii* 'Ostrich Plume'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 60-90 cm tall, spreading up to 60 cm
Growth Rate: Moderate
Flower Color(s): Pink to red
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Astilbe thunbergii 'Ostrich Plume' is a stunning perennial known for its elegant plume-like flowers that bloom in shades of pink to red during the summer months. This plant thrives in shady areas and moist, rich soil, making it ideal for woodland gardens or shady borders. Its low maintenance nature and resistance to deer make it a popular choice for both beginner and experienced gardeners. With its attractive foliage and ability to attract butterflies, Ostrich Plume Astilbe adds beauty and charm to any garden landscape, especially when paired with companion plants like hostas and ferns.

Optimal Growing Requirements

Sun: Part Shade to Full Shade

Soil: Rich, moist, well-draining soil

Water: High Watering

Hardiness Zone(s): Zones 3-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Slugs, powdery mildew

Additional Information

Special Features: Deer resistant, attracts butterflies
