

Plant Information

Common Name: Ox-eye Sunflower
Scientific Name: Heliopsis helianthoides 'Sparkling Contrast'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 60-90 cm tall and 30-60 cm wide
Growth Rate: Moderate
Flower Color(s): Yellow with dark centers
Foliage Color(s): Dark green
Bloom Time: Summer

Plant Description

Heliopsis Sparkling Contrast, commonly known as Ox-eye Sunflower, is a beautiful perennial plant that produces bright yellow flowers with dark centers. This low-maintenance plant thrives in full sun and moderate watering, making it an excellent choice for borders or pollinator gardens. With its dark green foliage and attractive blooms, Heliopsis Sparkling Contrast adds a pop of color to any landscape. It is drought-tolerant and attracts pollinators, enhancing the biodiversity of your garden. Pair it with other sun-loving plants like Coneflowers and Black-eyed Susans for a stunning display all summer long.

Optimal Growing Requirements

Sun: Full Sun

Soil: Loamy, well-drained soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Generally pest and disease resistant

Additional Information

Special Features: Attracts pollinators, drought-tolerant
Common Uses: Border plant, pollinator garden
