

## Plant Information

Common Name: Paprika Yarrow  
Scientific Name: *Achillea millefolium* 'Paprika'  
Plant Type: Perennial

## Physical Characteristics

Height/Spread: 30-60 cm tall and 30-45 cm wide  
Growth Rate: Moderate  
Flower Color(s): Reddish-orange  
Foliage Color(s): Green  
Bloom Time: Summer

## Plant Description

*Achillea m* Paprika, commonly known as Paprika Yarrow, is a stunning perennial with clusters of reddish-orange flowers that bloom in the summer months. This low-maintenance plant thrives in full sun and well-drained soil, making it perfect for borders or containers in the garden. Its feathery green foliage adds texture and interest to any landscape, while its drought tolerance and attractiveness to butterflies make it a popular choice for gardeners. Paprika Yarrow pairs well with lavender, echinacea, and sedum, creating a colorful and vibrant garden display. Hardy in zones 3-9, this plant brings a pop of color and beauty to any outdoor space.

## Optimal Growing Requirements

Sun: Full sun

Soil: Well-drained soil

Water: Low to moderate watering

Hardiness Zone(s): Zones 3-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Generally pest and disease resistant

## Additional Information

Special Features: Drought-tolerant, attracts butterflies  
Common Uses: Borders, containers, cut flowers

## Notes
