

Plant Information

Common Name: Pee Gee Hydrangea
Scientific Name: Hydrangea paniculata 'Grandiflora'
Plant Type: Shrub

Physical Characteristics

Height/Spread: 2-3 meters tall and wide
Growth Rate: Moderate
Flower Color(s): White, turning pink in fall
Foliage Color(s): Green
Bloom Time: Summer to Fall

Plant Description

Hydrangea p Pee Gee, also known as Pee Gee Hydrangea, is a stunning shrub that produces large, cone-shaped clusters of white flowers in summer, which gradually turn pink in the fall. Its green foliage creates a beautiful backdrop for the abundant blooms. This versatile shrub thrives in a variety of soil types and can tolerate moderate drought conditions. Pee Gee Hydrangea is low-maintenance and attracts pollinators to the garden. It is an excellent choice for borders, hedges, or as a striking focal point in the landscape. Pair it with Japanese maples, ornamental grasses, or coneflowers for a beautiful garden display.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-draining, fertile soil

Water: Moderate watering

Hardiness Zone(s): Zones 3-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and powdery mildew

Additional Information

Special Features: Drought-tolerant, attracts pollinators
Common Uses: Ideal for borders, hedges, or as a specimen plant

Notes
