

## Plant Information

Common Name: Peking Cotoneaster  
Scientific Name: *Cotoneaster acutifolius*  
Plant Type: Shrub

## Physical Characteristics

Height/Spread: 1-2 meters in height, 2-3 meters in spread  
Growth Rate: Moderate  
Flower Color(s): White  
Foliage Color(s): Dark green  
Bloom Time: Spring

## Plant Description

Cotoneaster a Peking, also known as Peking Cotoneaster, is a medium-sized shrub with dark green foliage and white flowers in the spring. It produces red berries that attract birds and is drought-tolerant, making it a low-maintenance option for gardens. This shrub is suitable for borders and ground cover and thrives in well-drained, loamy soil in full sun to part shade. Peking Cotoneaster is an excellent choice for gardeners looking to attract wildlife while adding visual interest to their landscape.

## Optimal Growing Requirements

Sun: Full Sun, Part Shade

Soil: Well-drained, loamy soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zones 3-5

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Susceptible to fire blight and scale insects

## Additional Information

Special Features: Drought-tolerant, attracts birds with its red berries  
Common Uses: Ideal for borders and ground cover
