

## Plant Information

Common Name: Polar Night Rhododendron  
Scientific Name: Rhododendron x 'Polarnacht'  
Plant Type: Shrub

## Physical Characteristics

Height/Spread: 1-2 meters in height, 1-2 meters in spread  
Growth Rate: Slow to Moderate  
Flower Color(s): Dark purple  
Foliage Color(s): Dark green  
Bloom Time: Spring

## Plant Description

Rhodo Polarnacht, also known as Polar Night Rhododendron, is a stunning shrub that blooms in the spring with dark purple flowers against dark green foliage. This slow to moderate growing shrub prefers part to full shade and moderate watering. It is low maintenance and deer-resistant, making it a great addition to borders, hedges, or woodland gardens. Rhodo Polarnacht also attracts hummingbirds with its fragrant flowers. Plant alongside hostas, ferns, or heucheras for a beautiful and harmonious garden display. Its dark hues add depth and contrast to any landscape, making it a popular choice for Canadian gardens.

## Optimal Growing Requirements

Sun: Part shade to full shade

Soil: Well-drained, acidic soil

Water: Moderate watering

Hardiness Zone(s): Zone 4-7

## Maintenance & Care

Maintenance Level: Low to Moderate  
Potential Pests & Diseases: Rhododendron borers, powdery mildew

## Additional Information

Special Features: Deer-resistant, attracts hummingbirds  
Common Uses: Borders, hedges, woodland gardens
