

## Plant Information

Common Name: Porcelain berry vine  
Scientific Name: Ampelopsis brevipedunculata  
Plant Type: Vine

## Physical Characteristics

Height/Spread: 3-5 meters  
Growth Rate: Fast  
Flower Color(s): Greenish-white  
Foliage Color(s): Green; turns purple, pink, and blue in fall  
Bloom Time: Summer

## Plant Description

Ampelopsis brev, also known as porcelain berry vine, is a fast-growing vine with greenish-white flowers and colorful foliage that turns purple, pink, and blue in the fall. This low-maintenance plant is perfect for adding vertical interest to your garden or as a ground cover. Porcelain berry vine is a great choice for attracting birds and adding a pop of color to your landscape. It prefers well-draining, fertile soil and moderate watering. Consider planting it alongside clematis, climbing roses, or trumpet vine for a beautiful and harmonious garden display.

## Optimal Growing Requirements

Sun: Full Sun, Part Shade

Soil: Well-draining, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 6-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Japanese beetles, aphids, powdery mildew

## Additional Information

Special Features: Attracts birds; colorful foliage  
Common Uses: Climbing vine, ground cover
