

Plant Information

Common Name: Prima Donna Rose
Scientific Name: Rosa 'Prima Donna'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 1-1.2 meters tall, 75-90 centimeters wide
Growth Rate: Moderate
Flower Color(s): Deep pink
Foliage Color(s): Dark green
Bloom Time: Summer

Plant Description

The Prima Donna Rose is a stunning perennial plant that produces beautiful deep pink flowers in the summer. Its dark green foliage provides a striking contrast to the vibrant blooms. This rose variety is easy to care for and thrives in full sun with moderate watering. With its fragrant flowers, the Prima Donna is a favorite for borders and containers in gardens. Keep an eye out for pests like aphids and diseases like powdery mildew, and consider planting alongside lavender or salvia for a visually appealing garden display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, powdery mildew

Additional Information

Special Features: Fragrant flowers
Common Uses: Borders, containers
