

Plant Information

Common Name: Raspberry Delosp Granita
Scientific Name: Rubus idaeus 'Delosp Granita'
Plant Type: Perennial

Physical Characteristics

Height/Spread: 1-1.5 meters tall and wide
Growth Rate: Moderate
Flower Color(s): White
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Delosp Granita Raspberry is a high-yielding raspberry plant that produces delicious and juicy berries in the summer months. With its moderate growth rate and low maintenance needs, it is a popular choice for home gardeners looking to grow their own fruit. This perennial plant thrives in full sun and well-drained, fertile soil, making it a versatile option for gardens in Canada. The white flowers add a decorative touch to the landscape, while the green foliage provides a lush backdrop. Considered a hedge plant, Delosp Granita Raspberry can also be planted alongside other fruit-bearing shrubs like blueberries and blackberries for a bountiful harvest.

Optimal Growing Requirements

Sun: Full sun

Soil: Well-drained, fertile

Water: Moderate watering

Hardiness Zone(s): Zone 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, spider mites, powdery mildew

Additional Information

Special Features: High fruit production, attracts pollinators
Common Uses: Edible fruit, hedge plant

Notes
