

### Plant Information

Common Name: Red Osier Dogwood  
Scientific Name: *Cornus sericea*  
Plant Type: Shrub

### Physical Characteristics

Height/Spread: 1-3 meters tall, 1-2 meters wide  
Growth Rate: Fast  
Flower Color(s): White  
Foliage Color(s): Green  
Bloom Time: Late Spring to early Summer

### Plant Description

*Cornus s Red Osier*, commonly known as Red Osier Dogwood, is a fast-growing shrub that adds beauty and interest to landscapes year-round. With its white flowers in late spring to early summer, green foliage, and red branches in winter, this plant provides a variety of colors throughout the seasons. Red Osier Dogwood is easy to maintain, preferring moist, well-drained soil and moderate watering. It is a great choice for erosion control, wildlife gardens, and borders, as it attracts birds and adds visual appeal. Consider planting it alongside companions like Serviceberry and Purple Coneflower for a striking garden display.

### Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Moist, well-drained soil

Water: Moderate Watering

Hardiness Zone(s): Zone 2-7

### Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Susceptible to powdery mildew and leaf spots.

### Additional Information

Special Features: Red branches add winter interest, attracts birds.  
Common Uses: Erosion control, wildlife gardens, borders.
