

Plant Information

Common Name: Red Pigmy Japanese Maple
Scientific Name: Acer palmatum 'Red Pigmy'
Plant Type: Tree

Physical Characteristics

Height/Spread: 1-2 meters
Growth Rate: Slow
Flower Color(s): Inconspicuous
Foliage Color(s): Red
Bloom Time: Spring

Plant Description

Acer palmatum 'Red Pigmy', commonly known as Red Pigmy Japanese Maple, is a stunning tree with red foliage that adds a pop of color to any landscape. Its slow growth rate makes it perfect for small spaces or container gardening. This beautiful tree thrives in part shade and moderate watering conditions. With its unique red foliage and compact size, Red Pigmy Japanese Maple is a standout in any garden. Plant it as an accent piece or in a container to enjoy its beauty year-round. Pair it with hostas, ferns, or coral bells for a striking and cohesive landscape design.

Optimal Growing Requirements

Sun: Part Shade

Soil: Well-draining, acidic soil

Water: Moderate Watering

Hardiness Zone(s): Zone 5-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, scale insects, verticillium wilt

Additional Information

Special Features: Attractive foliage, compact size
Common Uses: Accent plant, container plant

Notes
