Plant Description

Red Wing Viburnum, also known as Cranberry bush, is a beautiful shrub with white flowers in the spring and stunning red fall foliage. It is a hardy plant that attracts birds with its berries. This shrub is perfect for hedges, borders, or wildlife gardens, adding color and interest to any landscape. With its low maintenance requirements and moderate growth rate, Red Wing Viburnum is a popular choice for Canadian gardens. Plant it alongside other shrubs like Lilac, Spirea, or Hydrangea for a visually appealing garden design.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Moist, well-drained soil

Water: Moderate watering

Hardiness Zone(s): Zone 2-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and powdery mildew

Additional Information

Special Features: Attractive red fall foliage, berries that attract birds
Common Uses: Hedges, borders, wildlife gardens
