

Plant Information

Common Name: Rose Pink Dianthus
Scientific Name: Dianthus deltooides Roseus
Plant Type: Perennial

Physical Characteristics

Height/Spread: 15-20 cm height, 20-30 cm spread
Growth Rate: Moderate
Flower Color(s): Bright pink
Foliage Color(s): Blue-green
Bloom Time: Late Spring to Early Summer

Plant Description

Dianthus deltooides Roseus, commonly known as Rose Pink Dianthus, is a charming perennial plant with bright pink flowers that bloom from late spring to early summer. Its blue-green foliage adds a lovely contrast to the vibrant blooms. This low-maintenance plant thrives in full sun and well-drained soil, making it an ideal choice for rock gardens, borders, or as a ground cover. Rose Pink Dianthus is drought-tolerant and attracts butterflies, adding beauty and life to any garden. Pair it with companions like Lavender, Salvia, or Veronica for a stunning display of colors and textures.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Low to Moderate

Hardiness Zone(s): Zones 3-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, spider mites, crown rot

Additional Information

Special Features: Drought-tolerant, attracts butterflies
Common Uses: Ground cover, rock gardens, borders
