

## Plant Information

Common Name: Royal Burgundy Barberry  
Scientific Name: *Berberis thunbergii* Royal Burgundy  
Plant Type: Shrub

## Physical Characteristics

Height/Spread: 1-1.5 meters in height, 1-1.5 meters in spread  
Growth Rate: Moderate  
Flower Color(s): Yellow  
Foliage Color(s): Deep burgundy/purple  
Bloom Time: Spring

## Plant Description

*Berberis thunbergii* Royal Burgundy, also known as Royal Burgundy Barberry, is a stunning shrub with deep burgundy foliage that adds a pop of color to any garden. This moderate-growing shrub blooms with yellow flowers in spring and is low-maintenance, making it ideal for beginners or busy gardeners. Its drought-tolerant nature and resistance to deer make it a great choice for landscapes in Canada. Plant it as a border plant, hedge, or in mass plantings for a bold and colorful display. Pair it with spirea, ornamental grasses, or other flowering shrubs for a beautiful and harmonious garden design.

## Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining, loamy soil

Water: Low to Moderate Watering

Hardiness Zone(s): Zones 3-7

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Susceptible to aphids, spider mites, and rust

## Additional Information

Special Features: Drought-tolerant, deer-resistant  
Common Uses: Hedge, border plant, mass planting
