

Plant Information

Common Name: Silver Mound Artemisia
Scientific Name: Artemisia schmidtiana 'Silver Mound'
Plant Type: Perennial

Physical Characteristics

Height/Spread: 30-45 cm tall, 30-45 cm wide
Growth Rate: Moderate
Flower Color(s): Insignificant
Foliage Color(s): Silvery-gray
Bloom Time: Late summer to fall

Plant Description

Artemisia Silver Mound, also known as Silver Mound Artemisia, is a stunning perennial with delicate silvery-gray foliage that adds a touch of elegance to any garden. This low-maintenance plant thrives in full sun and well-drained soil, making it perfect for rock gardens, borders, or containers. Its drought-tolerant nature and deer resistance make it a popular choice for landscaping. In late summer to fall, inconspicuous flowers appear, but it is the foliage that truly steals the show. Pair Artemisia Silver Mound with Lavender, Salvia, or Russian Sage for a beautiful and harmonious garden display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, Sandy soil

Water: Low Watering

Hardiness Zone(s): Zones 3-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Deer resistant but may be susceptible to powdery mildew

Additional Information

Special Features: Drought tolerant, deer resistant
Common Uses: Rock gardens, borders, containers
