

### Plant Information

Common Name: Snowsation Candytuft  
Scientific Name: Iberis Snowsation  
Plant Type: Perennials

### Physical Characteristics

Height/Spread: 20-30 centimeters tall and 30-45 centimeters wide  
Growth Rate: Moderate  
Flower Color(s): White  
Foliage Color(s): Green  
Bloom Time: Spring

### Plant Description

Iberis Snowsation, commonly known as Snowsation Candytuft, is a beautiful perennial plant with white flowers that bloom in spring. This low-maintenance plant is drought-tolerant and has fragrant flowers that attract pollinators. It is perfect for borders or as a ground cover in gardens. Snowsation Candytuft thrives in full sun and well-drained, fertile soil. With its green foliage and moderate growth rate, this plant adds a touch of elegance to any landscape. Pair it with lavender, salvia, or sedum for a stunning garden display.

### Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Low Watering

Hardiness Zone(s): Zone 3-7

### Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Aphids, powdery mildew

### Additional Information

Special Features: Drought-tolerant, fragrant flowers  
Common Uses: Border plant, ground cover
