

Plant Information

Common Name: Tangerine Skies
Scientific Name: Hemerocallis 'Tangerine Skies'
Plant Type: Perennials

Physical Characteristics

Height/Spread: 60cm - 90cm height, 60cm - 90cm spread
Growth Rate: Moderate
Flower Color(s): Tangerine orange
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Tangerine Skies is a stunning perennial plant that features tangerine orange flowers and fragrant blooms in the summer. With a moderate growth rate and low maintenance level, this plant is perfect for borders or containers in full sun areas. Its green foliage provides a beautiful contrast to the vibrant flowers, attracting pollinators to the garden. Tangerine Skies is a versatile plant that can be paired with companion plants such as purple cone flower, Russian sage, and Black-eyed Susan for a colorful and vibrant landscape.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Spider mites, aphids, rust

Additional Information

Special Features: Fragrant flowers
Common Uses: Border plant, container plant

Notes
