

Plant Information

Common Name: Tila Boulevard
Scientific Name: Tilia cordata
Plant Type: Tree

Physical Characteristics

Height/Spread: 15-20 meters tall, 7-12 meters wide
Growth Rate: Moderate
Flower Color(s): Yellow-green
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Tila Boulevard, also known as the Small-leaved Lime, is a beautiful and versatile tree that is well-suited for Canadian landscapes. With its attractive foliage, fragrant flowers, and moderate growth rate, it makes an excellent shade tree or specimen tree in gardens and parks. Thriving in full sun to part shade, this tree can tolerate various soil types and is relatively low-maintenance. Its yellow-green flowers bloom in the summer, attracting bees and adding charm to outdoor spaces. Tila Boulevard is a great choice for those looking to enhance their gardens with a reliable and aesthetically pleasing tree.

Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Loamy, Well-drained

Water: Moderate Watering

Hardiness Zone(s): Zone 4-7

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, caterpillars

Additional Information

Special Features: Fragrant flowers, attracts bees
Common Uses: Shade tree, specimen tree
