Plant Description

Iris pseu Tsukiyono, also known as Tsukiyono Iris, is a delightful perennial plant that adds beauty to any garden or landscape. With its striking violet-blue flowers adorned with white and yellow markings, this iris blooms in late spring to early summer. Its moderate growth rate and low maintenance requirements make it an excellent choice for gardeners looking to add color and fragrance to their outdoor spaces. Additionally, the Tsukiyono Iris is a favorite among butterflies, making it a perfect choice for butterfly gardens. Pair it with companions such as lilac, Russian sage, or daylilies for a stunning display of colors and textures.

Optimal Growing Requirements
