

Plant Information

Common Name: Vinca
Scientific Name: Vinca minor
Plant Type: Ground Covers

Physical Characteristics

Height/Spread: 0.1-0.2 meters height, 0.6-1 meter spread
Growth Rate: Moderate
Flower Color(s): Blue, Purple, White
Foliage Color(s): Green
Bloom Time: Spring, Summer, Fall

Plant Description

Vinca, also known as periwinkle, is a versatile ground cover plant that thrives in shady areas with moderate watering. Its attractive blue, purple, or white flowers bloom in spring, summer, and fall, adding color to the garden. Vinca's green foliage and low maintenance nature make it a popular choice for landscapes looking to add ground cover or fill in bare spots. With its ability to attract pollinators and tolerate drought, Vinca is a valuable addition to any garden or container planting. Pair it with hostas, ferns, or bleeding hearts for a harmonious and beautiful landscape design.

Optimal Growing Requirements

Sun: Part Shade, Shade

Soil: Sandy, Loamy, Clay

Water: Moderate Watering

Hardiness Zone(s): Zone 3-8

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aphids and root rot

Additional Information

Special Features: Drought-tolerant, attracts pollinators
Common Uses: Ground cover, container plant
