

## Plant Information

Common Name: Virginia Creeper  
Scientific Name: Parthenocissus  
Plant Type: Vines

## Physical Characteristics

Height/Spread: 10-20 meters in height, spreading indefinitely  
Growth Rate: Fast  
Flower Color(s): Greenish white  
Foliage Color(s): Green (turns red in fall)  
Bloom Time: Summer

## Plant Description

Parthenocissus, commonly known as Virginia Creeper, is a fast-growing vine with beautiful green foliage that turns a stunning red in the fall. This versatile plant thrives in various soil types and is low-maintenance, making it a popular choice for gardeners looking to add vertical interest to their landscapes. Virginia Creeper's greenish white flowers bloom in the summer, attracting birds with its berries. With its ability to climb walls, fences, and arbors, this vine is excellent for creating a lush and vibrant backdrop in any garden. Partner Virginia Creeper with complementary climbers like Clematis or Wisteria for a stunning display.

## Optimal Growing Requirements

Sun: Full Sun to Part Shade

Soil: Well-draining, loamy soil

Water: Moderate Watering

Hardiness Zone(s): Zone 2-9

## Maintenance & Care

Maintenance Level: Low  
Potential Pests & Diseases: Aphids, scale insects, powdery mildew

## Additional Information

Special Features: Adaptable to various soils, attracts birds  
Common Uses: Climbing vine for walls, fences, and arbors
