Bloom Time: Summer

Plant Description

The Water Lily Marliac, scientifically known as *Nymphaea 'Marliacea'*, is a stunning aquatic plant that adds beauty and elegance to ponds and water gardens. With its delicate pink, white, or yellow flowers and lush green foliage, this plant thrives in full sun and high water conditions. Its fragrant blooms attract pollinators and add a lovely touch to any landscape. Hardy in zones 4-10, this low-maintenance plant is an excellent choice for water features. Pair it with other water lilies and lotus flowers for a harmonious garden design.

Optimal Growing Requirements

Sun: Full Sun

Soil: Muddy, Loamy

Water: High Watering

Hardiness Zone(s): Zone 4-10

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, Spider Mites

Additional Information

Special Features: Fragrant flowers
Common Uses: Pond plant

Notes
