Plant Type: Shrub

Physical Characteristics

Height/Spread: 1.5-2 meters tall and 1.2-1.8 meters wide
Growth Rate: Moderate
Flower Color(s): White with a hint of pink
Foliage Color(s): Green
Bloom Time: Summer to Fall

Plant Description

Hibiscus s White Chiffon, also known as White Chiffon Hibiscus, is a beautiful shrub with delicate white flowers that have a touch of pink. This moderate-growing plant blooms from summer to fall, adding a touch of elegance to any garden. With its green foliage and low maintenance requirements, White Chiffon Hibiscus is an excellent choice for hedges or as a specimen plant. Its drought-tolerant nature and ability to attract butterflies make it a popular choice for gardeners looking to add charm and wildlife to their outdoor spaces. Pair it with butterfly bush, coneflowers, or Russian sage for a stunning landscape display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-draining soil

Water: Moderate Watering

Hardiness Zone(s): Zones 5-9

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Aphids, spider mites, leaf spot

Additional Information

Special Features: Drought-tolerant, attracts butterflies
Common Uses: Hedge, specimen plant
