

Plant Information

Common Name: White Coneflower
Scientific Name: Echinacea pur Pure White
Plant Type: Perennials

Physical Characteristics

Height/Spread: 0.6-0.9 meters tall, 0.3-0.6 meters wide
Growth Rate: Moderate
Flower Color(s): White
Foliage Color(s): Green
Bloom Time: Summer

Plant Description

Echinacea pur Pure White, commonly known as White Coneflower, is a stunning perennial plant with white daisy-like flowers that bloom in the summer. Its green foliage provides a beautiful contrast to the bright flowers, making it a popular choice for garden borders. This low-maintenance plant is drought-tolerant and attracts pollinators like butterflies. It thrives in full sun and well-drained soil, making it a versatile addition to any garden. Pair it with other perennials like Black-eyed Susan or ornamental grasses for a vibrant and long-lasting display.

Optimal Growing Requirements

Sun: Full Sun

Soil: Well-drained, fertile soil

Water: Moderate Watering

Hardiness Zone(s): Zone 3-5

Maintenance & Care

Maintenance Level: Low
Potential Pests & Diseases: Susceptible to aster yellows, powdery mildew, and spider mites

Additional Information

Special Features: Drought-tolerant, attracts pollinators
Common Uses: Border plant, attracts butterflies
